

Scrap Grapple (GSG)

FEATURES

- 1 Heavy-duty guarding system completely protects cylinders and internal components: removes easily for internal maintenance access
- 2 Reverse-mounted cylinders protect rods from damage
- 3 Large bore hydraulic cylinders maximize clamping force
- 4 Standard cross-over relief valves protect hydraulic system from pressure spikes
- 5 Standard counter-balance valve for better load-holding capabilities
- 6 High-torque continuous 360° rotation for handling large and uneven loads
- 7 Large diameter hardened steel pins with integrated shear-proof pin retainers
- 8 Identical grease-free composite bearings with dust seals at all pivot points
- 9 Long-life, abrasion-resistant steel tips are easily replaced with simple perimeter weld
- 10 All tine styles feature fully boxed construction for strength and durability
- 11 Multiple tine and spade styles for all types of scrap material (see below)
- 12 Overall footprint easily fits inside trailers

APPLICATIONS

- Scrap Handling
- C&D Sorting
- Bulk Material Handling

Tines available in half and narrow spades

Flat Bottom or Point

Genesis Scrap Grapples are covered by a 12-month, 1,500-hour (whichever occurs first) warranty. Genesis reserves the right to continually make product improvements designed to positively enhance product performance.
