

Processor Tooth Build-Up Templates

Processor Tooth Build-Up Templates

Properly maintaining demolition attachment teeth maximizes performance and optimizes the life of replacement parts. As teeth become worn, they need to be rotated, built-up or replaced.

To help customers determine and monitor how far processor teeth have worn from their original shape, Genesis has created tooth build-up templates.

Available for the Genesis GDR, GDT Razer, GRX Razer X, LXP®, GMP and GCP, each template is sized and formed to that tooth's original shape and features three lines that indicate wear level. Simply place the template over the tooth to determine the amount of wear and build-up required or if replacement is needed.

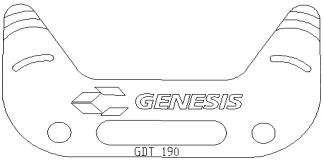

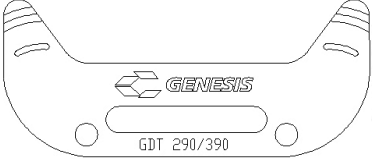

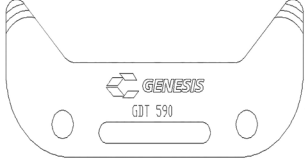

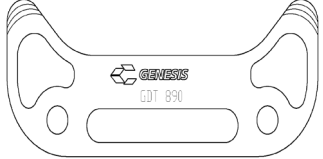

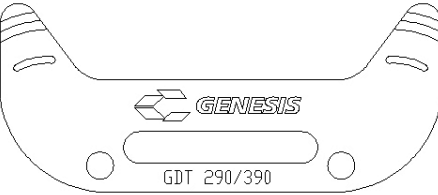

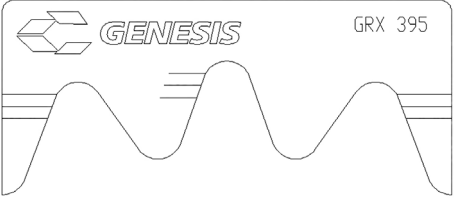

Contact your local Genesis dealer or the Genesis Parts Department to order.

Line 1	½" wear - schedule maintenance to flip or rotate in jaw
Line 2	1" wear - flip, rotate in jaw or build up
Line 3	1½" wear - replace, if all points are worn on flippable teeth

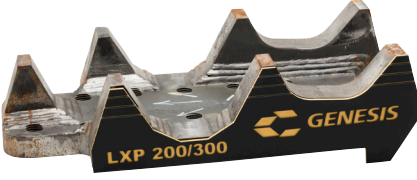

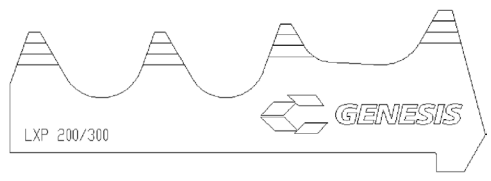

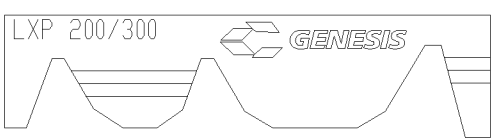

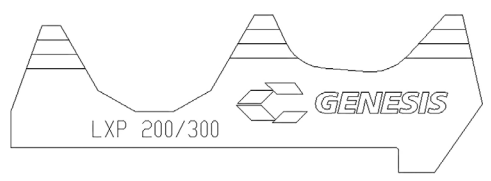

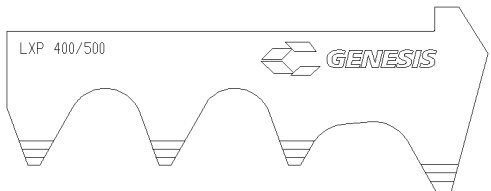

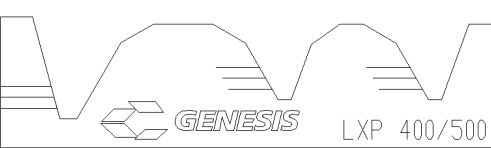

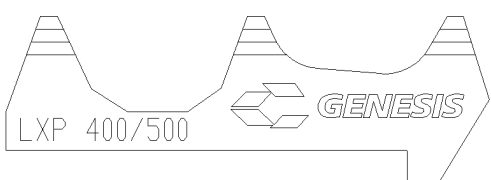

GDR	Model	Part Number	Template
	150 & 200	9100899	
	150 & 200	9102587	
	300 & 400	9102826	
	300 & 400	9102586	

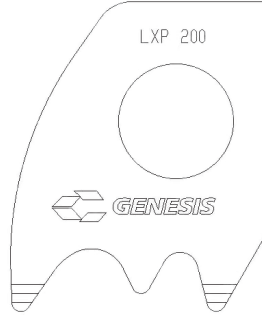

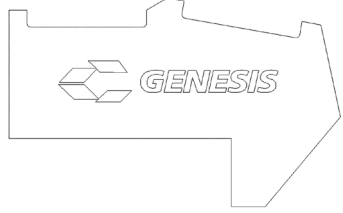

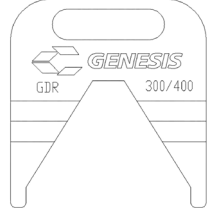

Processor Tooth Build-Up Templates

GDT Razer	Model	Part Number	Template
 	190	9102985	
	290 & 390	9102930	
	590	9103745	
	890	9104041	
GRX Razer X	Model	Part Number	Template
	195 & 295	9102985	
		9102930	
	395	9103747	
		9103748	

Processor Tooth Build-Up Templates

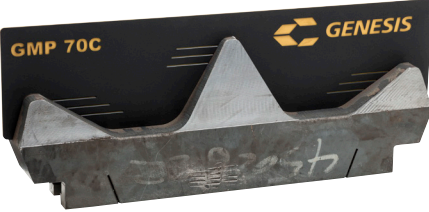

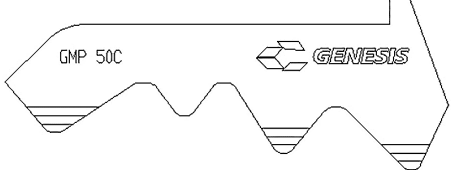

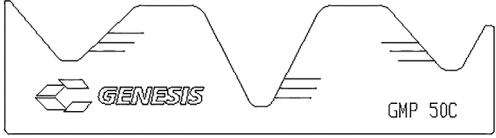

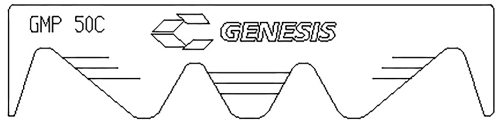

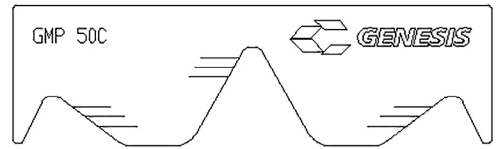

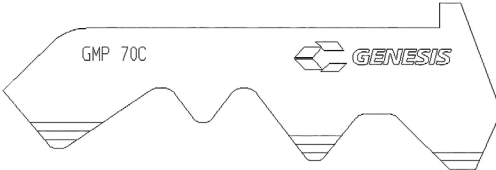

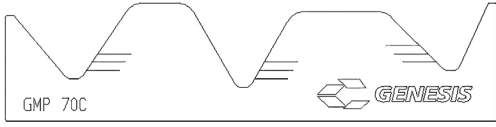

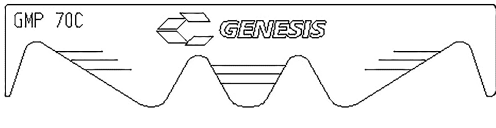

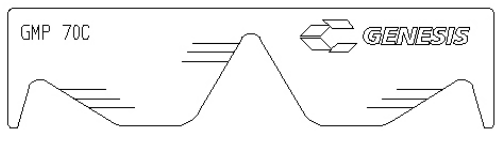

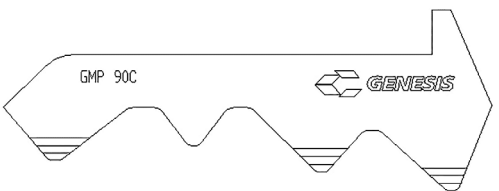

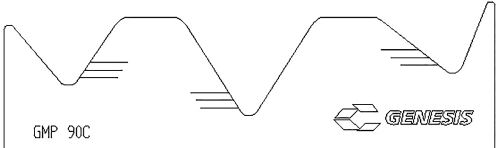

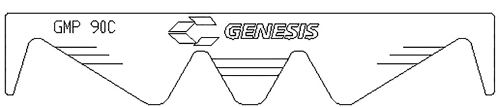

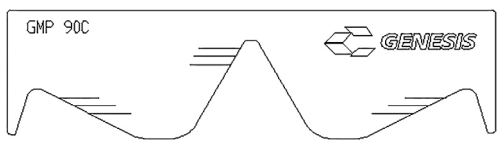

LXP®	Model	Part Number	Template
	200 & 300	9100582	
		9100583	
		9100584	
	400 & 500	9100587	
		9100588	
		9100589	

LXP®	Model	Part Number	Template	
 	200	9100852		
	300 & 400	9100780		
	500	9100853		
	800		9102826	
			9102586	

Processor Tooth Build-Up Templates

GMP	Model	Part Number	Template
	50 C/D Weld-on	9103759	
		9103760	
	50 C/D Bolt-on	9103761	
		9103762	
	70 C/D Weld-on	9103755	
		9103756	
	70 C/D Bolt-on	9103757	
		9103758	

GMP	Model	Part Number	Template
	90 C/D Weld-on	9103763	
		9103764	
	90 C/D Bolt-on	9103765	
		9103766	

Processor Tooth Build-Up Templates

GCP	Model	Part Number	Template
	410	9103853	
		9103854	
		9103855	
	610	9103856	
		9103857	
		9103858
